

Remarks

Reference is made to the marked-up drawings. Entry of the replacement sheet drawings is respectfully requested.

Fig. 3 identifies (by an oval) a lead line that has been removed because no reference number was denoted by the lead line.

In Figure 4A, an oval identifies the word "CONTROLLER" the spelling of which has been corrected.

In Figure 5, a circle identifies a portion of a lead line that has been deleted, so that Figure 5 conforms to Figure 6A.

In Figures 6A and 6C, a circle in each Figure identifies an arrowhead that has been corrected.

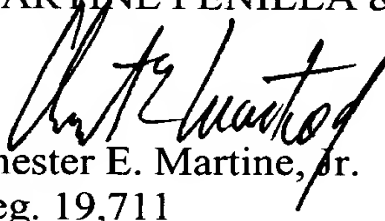

In Figure 6B, a circle identifies the reference number 346 (and lead line) which have been removed because no such number is referenced in the description.

Because these drawing changes correct minor inadvertent errors and do not add new matter, entry of the replacement sheets is respectfully requested, and is believed to be in order.

If the Examiner has any questions concerning these drawings, please contact the undersigned at the number set forth below.

Respectfully submitted,
